DETAILED ACTION

The Amendment filed on 05 May 2005 has been acknowledged.

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in an email from Mr. Kia Silverbrook on 15 June 2005.

The application has been amended as follows:

In claim 1:

-Delete "an" and insert --its own individual-- before "associated actuator" in the last line.

Information Disclosure Statement

3. The information disclosure statement (IDS) submitted on 05 May 2005 was filed and is being considered by the examiner. Examiner would like to point out that applicant improperly listed the two articles in form PTO-1449 under the section for U.S. Patents. Therefore, examiner re-listed the two articles in form PTO-892 under Non-Patent Documents section.

Allowable Subject Matter

4. Claims 1 and 3-7 are allowed.

The following is an examiner's statement of reasons for allowance:

The primary reason for the allowance of claims 1 and 3-7 is the inclusion of the limitation of an ink jet nozzle arrangement that includes a plurality of ink ejection elements disposed symmetrically relative to the ink ejection port, each ink ejection element having its own individual associated actuator. It is this limitation found in the claims, as it is claimed in the combination of, that has not been found, taught or suggested by the prior art of record which makes these claims allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
